

JACK STAHEL:

Organism

OPENS: 5-7.30PM TUESDAY 27 SEPTEMBER

EXHIBITION DATES: 28 SEPTEMBER- 8 OCTOBER 2011

Driven compulsively by his process, Jack Stahel's practice is a continuous and obsessive exploration of the human mind. It resembles a living, growing life form, as well as acting as a documentation and mapping out of thought patterns.

'Organism' is a collection of these documentations, which as finished works also demand a personal exploration from the audience. Whilst our mind is integral to our perception of reality, it could also be considered one of the final frontiers of human exploration - an infinite and ephemeral landscape that remains an irresistible mystery.
